

TESTIMONIALS

Grace has been attending the nursery since she was 10 months old, she fell in love with the baby room staff especially Briony, Emi and Danielle which made me feel very comfortable leaving her! She took her first steps, said her first words and celebrated turning one whilst in that room and they helped her to grow and become such a confident little girl! All her achievements were recorded as observations and sent to us, making us aware of all the hard work they put in to getting the very best out of the babies in their care! I really wanted to mention the hard work the baby room do as it's such a special age and so many huge milestones are achieved all of which are praised and encouraged by everyone. They also played a huge part in her smooth transition to the toddler room (as well as mine as a parent!).

Since being in toddlers from September Grace has flourished even more, although she only attends one morning a week 'nursery' is a big part of her life! She talks about all her friends and JoJo, Linda and Phil lots when at home. She is always so excited to come to nursery and we get a 'yay nursery' when leaving the house on a Tuesday morning! I find Phil really does know what she likes and this is reflected in the activities they do together and the observations we receive. Grace has recently started potty training and I was terrified that she would have lots of accidents whilst being at nursery but she was a super star and didn't have any accidents and I have no doubt it was down to the way the toddler room staff encouraged her to use the potty and supported her in her new adventure! She surprises me every week with all the different things she has done in such a short morning, but I love the journey home after picking her up listening to her tell about all the things she has done. It's a brilliant nursery with brilliant staff that clearly love the work they do and the children they look after!

Thank you for all you do.
