News from the Rooms

Babies: In the Baby room we continue to build secure and happy relationships with the children. We have enjoyed activities to learn 'All about Me', labelling our facial features and body parts. With the colourful celebrations coming up, we will grab all the opportunities to awaken our senses and explore all the wonderful colours and textures that go along with them. As we continue into the term, the babies will enjoy exploring new foods as we investigate 'Food Glorious Food'. We will also have fun producing crafts for Halloween, Bonfire Night, Diwali and Christmas to name a few.

Tweenies: We are currently welcoming the children that have moved from Babies to Tweenies. We will be looking at Harvest Festival and all the different aspects of it, from farming, food and the changes in the environment. We have lots of activities in mind for the many celebrations and festivals coming up. We look forward to exploring all the different bright colours and textures! As we head into Winter, the children will have fun investigating the grounds on our popular nature walks.

Toddlers: This term we are looking at 'All About Me', where the children are learning and exploring about bodies, body parts, families, differences....all things them! We have some exciting dates coming up like Grandparents Stay and Play, Halloween, Bonfire Night and much more where the children's interests are implemented into the activities. Lots of learning opportunities will be had and most importantly lots of fun will take place. We shall be learning and exploring the season changing from Summer to Autumn, not only through our environment but also through Nature Detectives. As the Autumn term comes to an end, we look forward to celebrating all the different festivals and celebrations.

Toddlers 2: To start this term off we are learning about ourselves, how we are different/ similar and what we like/dislike. As the term goes on, we will be exploring food, in particular food from different countries, cultures and what is healthy for us. In Nature detectives we will explore the grounds and learn about the seasons and the changes that happen, as well as looking at how animals adapt to their changing environment. We will also be looking at all the exciting festivals and celebrations that are coming up and as always will be using every opportunity to encourage language and learn new words.

Intermediates/Pre-School: This term we will be settling the new children into the Intermediates/Pre-School room. They will be learning the new routine as well the rules and boundaries of the room. Our focus will be on Healthy Eating and how we can promote this through a variety of cooking activities as well as well as opening up our taste buds to try and love new foods! We will also be looking at the world around us, looking at the changes that are taking place in the different seasons we experience. We look forward to taking part in the many festivals and celebrations coming up. As we get closer to the end of the year, the children will be preparing for the Intermediates/Pre-School Nativity!

As a nursery we look forward to more learning, experiences, and sharing what we have enjoyed over the next term.

We have some very busy months coming up, with lots of exciting things happening!

We hope you enjoy seeing and hearing what your little ones are getting up to!

Many thanks for your continued support

Monica Sangha, Deputy Manager
