

Safeguarding Children Policy & Procedure

Safeguarding and promoting the welfare of children, in relation to this policy is defined as:

- Protecting children from maltreatment
- Preventing the impairment of children's health or development
- Ensuring that children are growing up in circumstances consistent with the provision of safe and effective care
- Taking action to enable all children to have the best outcomes.

(Definition taken from the HM Government document 'Working together to safeguard children 2023').

We support the children within our care, protect them from maltreatment and have robust procedures in place to prevent the impairment of children's health and development. Safeguarding is a much wider subject than the elements covered within this single policy, therefore this document should be used in conjunction with the other nursery policies and procedures.

Acceptable internet use policy	Nappy changing policy
Attendance policy	Online safety policy
	Promoting positive behaviour policy
Data protection and confidentiality policy	Recruitment, selection and suitability of staff policy
Emergency lockdown policy	Respectful intimate care policy
Inclusion and equality policy	Social networking policy
Late collection and non-collection of children policy	Special educational needs and disabilities (SEND) policy
Lone working policy	Staff code of conduct
Looked after children policy	Supervision of children policy
Low-level concern policy	Supervision of visitors policy
Missing child from nursery policy	Volunteers policy
Missing child from outings policy	Whistleblowing policy
Mobile phone and electronic device use policy	Young workers policy

At Prepcare Day Nurseries we will work with children, parents, external agencies and the community to ensure the welfare and safety of children and to give them the very best start in life. Children have the right to be treated with respect, be helped to thrive and to be safe from any abuse in whatever form.

We ensure staff students and volunteers are confident to implement these policies through recruitment, induction, ongoing training inline with the criteria in Annex C in the EYFS.

To this end we will:

- Create an environment to encourage children to develop a positive self-image
- Encourage children to develop a sense of independence and autonomy in a way that is appropriate to their age and stage of development
- Provide a safe and secure environment for all children
- Always listen to children
- Provide an environment where practitioners are confident to identify where children and families may need intervention and seek the help they need
- Share information with other agencies as appropriate.

Our nursery has a clear commitment to protecting children and promoting welfare. Should anyone believe that this policy is not being upheld, it is their duty to report the matter to the attention of the nursery manager at the earliest opportunity.

The legal framework for this policy is based on:

Safeguarding Vulnerable Groups Act (2006)

Early Years Foundation Stage (EYFS) (2025)

Working together to safeguard children (2023)

Practitioners, students and volunteers have a duty to protect and promote the welfare of children. Due to the many hours of care we are providing, staff will often be the first people to sense that there may be a problem. They may well be the first people in whom children confide about abuse or to spot changes in a child's behaviour which may indicate abuse. The nursery has a duty to be aware that abuse does occur in our society.

This statement lays out the procedures that will be followed if we have any reason to believe that a child in our care is subject to welfare issues including physical, sexual, emotional abuse or neglect.

Our prime responsibility is the welfare and well-being of all children in our care. As such we believe we have a duty to the children, parents and staff to act quickly and responsibly in any instance that may come to our attention. This includes sharing information with any relevant agencies such as local authority services for children's social care, health professionals or the police. All staff will work as part of a multi-agency team, where needed, in the best interests of the child.

The nursery aims to:

- Develop a safe organisational culture where staff are confident to raise concerns about professional conduct.
- Ensure that children are never placed at risk while in the charge of nursery staff
- Ensure that information is shared only with those people who need to know in order to protect the child and act in their best interest
- Ensure that all staff feel confident and supported to share information and seek the help that the child may need
- Ensure staff are trained to understand the safeguarding policy and procedure, are alert to identify possible signs of abuse, understand what is meant by child protection and are aware of the different ways in which children can be harmed, including by other children, i.e. bullying, discriminatory behaviour
- Ensure that all staff are familiar and updated regularly with child protection issues and procedures
- Ensure parents are fully aware of child protection policies and procedures when they register with the nursery and are kept informed of all updates when they occur
- Keep the child at the centre of all we do
- Make any referrals in a timely way, sharing relevant information as necessary in line with procedures set out by the Local Safeguarding Children Board .
- Regularly review and update this policy with staff and parents where appropriate and make sure it complies with any legal requirements and any guidance or procedures issued by the Local Safeguarding Children Board.
- Be aware of the increased vulnerability of children with Special Educational Needs and Disabilities (SEND), isolated families and vulnerabilities in families, including the additional potential impact of the trio of vulnerabilities on children and Adverse Childhood Experiences (ACEs)
- Ensure that all staff are trained at least every two years and updated regularly with child protection training and procedures and kept informed of changes to local and/or national procedures, including thorough annual safeguarding updates

- Follow clear whistleblowing procedures by taking any appropriate action relating to poor or unsafe practices and allegations of serious harm or abuse against any person working with children including reporting such allegations to Ofsted and other relevant authorities

Children will be supported by offering reassurance, comfort and sensitive interactions. Activities will be devised according to individual circumstances to enable children to develop confidence within their peer group.

Designated Safeguarding Lead (DSL)

The DSL has overall responsibility for the Safeguarding children and child protection policy and procedures. It is their role to ensure that the policy and procedures are implemented to safeguard and promote the welfare of children. They are responsible for coordinating safeguarding and child protection training for staff across the organisation.

There is always at least one designated person on duty during the opening hours of the setting. The designated persons receive comprehensive training, consistent with the training criteria provided in Annex C of the EYFS, at least every two years and update their knowledge on an ongoing basis, but at least once a year. They in turn support the ongoing development and knowledge of the staff team with regular safeguarding updates.

Designated Safeguarding Lead	Sophie King & Elsa Reis
Deputy Designated Safeguarding Lead	Chloe Sharpe

In the unlikely event that both the DSL and Deputy DSL are absent, and to ensure immediate action can be taken, contact the Local Safeguarding Partnership (LSP).

The role of the DSL

The role of the DSL is to:

- Monitor and update the Safeguarding children and child protection policy and procedures in line with new legislation and to ensure it is effective. This will be done by making sure that everyone understands the correct procedures during their individual annual review
- Ensure updates and new legislation are reflected in our services as soon as they are known
- Act as a source of support, advice and expertise for all staff, students, volunteers, children and parents who have child protection concerns
- Ensure detailed, accurate, secure written records of concerns and referrals
- Review all written safeguarding reports
- Assess information provided promptly, carefully and refer as appropriate to external agencies
- Provide signposting to other organisations
- Consult with statutory child protection agencies and regulatory bodies where required
- Make formal referrals to statutory child protection agencies or the police, as required.

In addition, the DSL is required to:

- Keep up-to-date with good practice and national requirements for safeguarding and child protection
- Provide information on safeguarding and child protection for the setting
- Raise awareness of any safeguarding and child protection training needs and implement where necessary
- Retain up-to-date knowledge of local child protection procedures, including how to liaise with local statutory children's services agencies and with the local safeguarding partners to safeguard children.

The DSL does not investigate whether or not a child has been abused or investigate an allegation or disclosure. Investigations are for the appropriate authorities, usually the police and social services.

Sharing low-level concerns

On occasion, inappropriate, problematic or concerning behaviour by staff or other adults is observed but does not meet the threshold for significant harm. This may be classed as a 'low-level' concern, although this does not mean that it is insignificant.

See Low-level concerns policy for full details.

We define a low-level concern as:

- Any concern, no matter how small, that an adult working with children may have acted in a way that is inconsistent with our Staff code of conduct policy, including inappropriate behaviour outside of work
- A concern that may be a sense of unease or a 'nagging doubt' and does not meet the harm threshold or is serious enough to refer to the LADO.

We encourage a culture of openness, trust and transparency, with clear values and expected behaviour, monitored and reinforced by all staff. All concerns or allegations, however small, will be shared and responded to. All concerns will be shared with the DSL, or other nominated person, as in our reporting procedures. We encourage concerns to be shared as soon as reasonably practicable and preferably within 24 hours of becoming aware of it. However, it is never too late to share a low-level concern.

It is not expected that staff will be able to determine whether the behaviour in question is a concern, complaint or allegation before sharing the information. If the DSL is in any doubt as to whether the information meets the harm threshold, they will consult the LADO.

Occasionally a member of staff may find themselves in a situation which could be misinterpreted or appear compromising to others. If this occurs, staff are encouraged to self-report to the DSL. Equally, a member of staff may have behaved in a manner which, on reflection, falls below the standards set in our Staff behaviour policy. If this occurs, staff are encouraged to self-report to the DSL. We encourage staff to be confident to self-refer and believe it reflects awareness of our standards of conduct and behaviour.

When the DSL receives the information, they will need to determine whether the behaviour:

- Meets, or may meet, the harm threshold (and so contact the LADO)
- Meets the harm threshold when combined with previous low-level concerns (and so contact the LADO)
- Constitutes a 'low-level' concern
- Is appropriate and consistent with the law and our Staff behaviour policy.

The DSL will make appropriate records of all information shared, including:

- With the reporting person
- The subject matter of the concern
- Any relevant witnesses (where possible)
- Any external discussions such as with the LSP or LADO
- Their decision about the nature of the concern
- Their rationale for that decision
- Any action taken.

This constitutes a record of low-level concern. We retain all records of low-level concerns in a separate low-level concerns file, with separate concerns regarding a single individual kept as a

chronology. These records are kept confidential and held securely, accessed only by those who have appropriate authority. Records will be retained at least until the individual leaves their employment.

If the low-level concern raises issues of misconduct, then appropriate actions following our Disciplinary procedures will be taken. Records will be kept in personnel files as well as in the low-level concerns file.

Monitoring children's attendance

As part of our requirements under the statutory framework we must follow up on absences in a timely manner. See our Attendance policy for further details about the processes we will take to implement this requirement.

We are required to monitor children's attendance patterns and trends to ensure they are consistent and no cause for concern. We ask parents to inform the nursery prior to their children taking holidays or days off, and all incidents of sickness absence should be reported to the nursery the same day so the nursery management are able to account for a child's absence.

If a child has not arrived at nursery within one hour of their normal start time, the parents will be contacted to ensure the child is safe and healthy. If the parents are not contactable then the emergency contacts numbers listed will be used to ensure all parties are safe. Staff will work their way down the emergency contact list until contact is established and we are made aware that all is well with the child and family.

If contact cannot be established then we would assess if a home visit were required to establish all parties are safe. If contact is still not established, we would assess if it would be appropriate to contact relevant authorities, including the police, in order for them to investigate further.

Where a child is part of a child protection plan, or during a referral process, any absences will immediately be reported to the Local Authority children's social care team to ensure the child remains safe and well.

Informing parents

Parents are normally the first point of contact. If a suspicion of abuse is recorded, parents are informed at the same time as the report is made, except where the guidance of the Local Authority children's social care team, police or LADO does not allow this to happen.

This will usually be the case where the parent or family member is the likely abuser or where a child may be endangered by this disclosure. In these cases, the investigating officers will inform parents.

Support to families

The nursery takes every step in its power to build up trusting and supportive relationships among families, staff, students and volunteers within the nursery.

The nursery will continue to welcome a child and their family whilst enquiries are being made in relation to abuse in the home situation. Parents and families will be treated with respect in a non-judgmental manner whilst any external investigations are carried out in the best interest of the child.

Confidentiality

Confidentiality must not override the right of children to be protected from harm. However, every effort will be made to ensure confidentiality is maintained for all concerned if an allegation has been made and is being investigated.

If uncertain about whether sensitive information can be disclosed to a third party, contact the DSL or call the Information Commissioner's Office helpline on 0303 123 1113. They will provide advice about the particulars relating to each individual case, including information which can and cannot be shared.

Staff must not make any comments either publicly or in private about the supposed or actual behaviour of a parent, child or member of staff.

Record keeping and data protection

Confidential records kept on a child are shared with the child's parents or those who have parental responsibility for the child, only if appropriate and in line with guidance of the Local Authority with the proviso that the care and safety of the child is paramount. We will do all in our power to support and work with the child's family.

The nursery keeps appropriate records to support the early identification of children and families which would benefit from early help. Factual records are maintained in a chronological order with parental discussions. Records are reviewed regularly by the DSL to look holistically at identifying children's needs.

Our Data protection and confidentiality policy will be applied with regards to any information received from an individual. Only persons involved in the investigation should handle this information although any investigating body will have access to all information stored in order to support an investigation.

Types of abuse

Abuse and neglect are forms of maltreatment of a child. Somebody may abuse or neglect a child by harming them, or by failing to act to prevent harm. Children may be abused within a family, institution, or community setting by those known to them or a stranger. This could be an adult or adults, another child or children.

The signs and indicators listed below may not necessarily indicate that a child has been abused, but will help us to recognise that something may be wrong, especially if a child shows a number of these symptoms or any of them to a marked degree.

Indicators of child abuse

- Failure to thrive and meet developmental milestones
- Fearful or withdrawn tendencies
- Aggressive behaviour
- Unexplained injuries to a child or conflicting reports from parents or staff
- Repeated injuries
- Unaddressed illnesses or injuries.

Recording suspicions of abuse and disclosures

Staff should make an objective record (supported by the nursery manager or Safeguarding Officer) of any observation or disclosure and include:

- Child's name
- Child's address
- Age of the child and date of birth
- Date and time of the observation or the disclosure
- Exact words spoken by the child
- Exact position and type of injuries or marks seen
- Exact observation of an incident including any other witnesses
- Name of the person to whom the concern was reported, with date and time; and the names of any other person present at the time
- Any discussion held with the parent(s) (where deemed appropriate).

These records should be signed by the person reporting this and the manager/deputy and/or safeguarding officer and then dated and kept in a separate confidential file.

If a child starts to talk to an adult about potential abuse it is important not to promise the child complete confidentiality. This promise cannot be kept. It is vital that the child is allowed to talk openly and disclosure is not forced or words put into the child's mouth. As soon as possible after the disclosure it is vital details are logged accurately leaving no space for the records to be altered.

It may be thought necessary that through discussion with all concerned the matter needs to be raised with the WCC, Lado and Ofsted, and/or a Early Help Assessment Framework (EHAF/CAF) needs to be initiated. Staff involved may be asked to supply details of any information/concerns they have with regard to a child. The nursery expects all members of staff to co-operate with the WCC, Lado and Ofsted in any way necessary to ensure the safety of the children.

Staff must not make any comments either publicly or in private about a parent's or staff's supposed or actual behaviour.

Physical abuse

Action needs to be taken if staff have reason to believe that there has been a physical injury to a child, where there is definite knowledge, or reasonable suspicion that the injury was inflicted or knowingly not prevented. These symptoms may include bruising or injuries in an area that is not usual for a child, e.g. fleshy parts of the arms and legs, back, wrists, ankles and face.

Many children will have cuts and grazes from normal childhood injuries. These should also be logged and discussed with the nursery manager or room leader.

Children and babies may be abused physically through shaking or throwing. Other injuries may include burns or scalds. These are not usual childhood injuries and should always be logged and discussed with the nursery manager.

Fabricated illness

This is also a type of physical abuse. This is where a child is presented with an illness that is fabricated by the adult carer. The carer may seek out unnecessary medical treatment or investigation. The signs may include a carer exaggerating a real illness or symptoms, complete fabrication of symptoms or inducing physical illness, e.g. through poisoning, starvation, inappropriate diet. This may also be presented through false allegations of abuse or encouraging the child to appear unwell to obtain unnecessary treatment or specialist support.

Procedure:

- All signs of marks/injuries to a child, when they come into nursery or occur during time at the nursery, will be recorded as soon as noticed by a staff member
- The incident will be discussed with the parent at the earliest opportunity, where felt appropriate
- Such discussions will be recorded and the parent will have access to such records
- If there appear to be any queries regarding the injury, the local authority children's social care team will be notified in line with procedures set out by the Local Safeguarding Children Board (LSCB).

Sexual abuse

Action needs to be taken under this heading if the staff member has witnessed occasion(s) where a child indicated sexual activity through words, play, drawing, had an excessive pre-occupation with sexual matters, or had an inappropriate knowledge of adult sexual behaviour or language. This may include acting out sexual activity on dolls/toys or in the role play area with their peers,

drawing pictures that are inappropriate for a child, talking about sexual activities or using sexual language or words. The child may become worried when their clothes are removed, e.g. for nappy changes.

If a child starts to talk openly to an adult about abuse they may be experiencing; the procedure stated in this document under 'recording abuse suspicions' will be followed.

Procedure:

- The adult should reassure the child and listen without interrupting if the child wishes to talk
- The observed instances will be detailed in a confidential report
- The observed instances will be reported to the nursery manager
- The matter will be referred to the local authority children's social care team
- A sensitive and confidential discussion will be held with the parents/carers of any other children party to inappropriate play.

Sexual Exploitation

Child sexual exploitation (CSE) is a type of sexual abuse. Children in exploitative situations and relationships receive something such as gifts, money or affection as a result of performing sexual activities or others performing sexual activities on them.

Children or young people may be tricked into believing they are in a loving consensual relationship. They might be invited to parties and given drugs or alcohol. They may also be groomed and exploited on line.

Child sexual exploitation is a complex form of abuse and it can be difficult for these working with children to identify and assess. The indicators for a child exploitation can sometimes be mistaken for "normal" adolescent behaviours.

Emotional abuse

Action should be taken under this heading if the staff member has reason to believe that there is a severe, adverse effect on the behaviour and emotional development of a child, caused by persistent or severe ill treatment or rejection.

This may include extremes of discipline where a child is shouted at or put down on a consistent basis, lack of emotional attachment by a parent, or it may include parents or carers placing inappropriate age or developmental expectations upon them. Emotional abuse may also be imposed through the child witnessing domestic abuse and alcohol and drug misuse by adults caring for them.

The child is likely to show extremes of emotion with this type of abuse. This may include shying away from an adult who is abusing them, becoming withdrawn, aggressive or clingy in order to receive their love and attention. This type of abuse is harder to identify as the child is not likely to show any physical signs.

Emotional signs	Physical signs
<ul style="list-style-type: none"> • Being overly affectionate or knowledgeable in a sexual way inappropriate to the child's age or stage of development • Personality changes, such as becoming insecure or clingy • Regressing to younger behaviour patterns, such as thumb sucking or bringing out discarded cuddly toys • Sudden loss of appetite or compulsive eating 	<ul style="list-style-type: none"> • Bruises • Bleeding, discharge, pains or soreness in their genital or anal area • Sexually transmitted infections • Pregnancy.

<ul style="list-style-type: none"> • Being isolated or withdrawn • Inability to concentrate • Lack of trust or fear of someone they know well, such as not wanting to be alone with a carer • Becoming worried about clothing being removed. 	
--	--

Procedure:

- The concern should be discussed with the nursery manager and room leader, appropriate paper work to be completed.
- The concern will be discussed with the parent
- Such discussions will be recorded, and the parent will have access to such records
- An Early Help Assessment Framework (EHAF) form may need to be completed
- If there appear to be any queries regarding the circumstances, the matter will be referred to the local authority children's social care team.

Neglect

Action should be taken under this heading if the staff member has reason to believe that there has been persistent or severe neglect of a child (for example, by exposure to any kind of danger, including cold, starvation or failure to seek medical treatment when required on behalf of the child), which results in serious impairment of the child's health or development, including failure to thrive.

Signs may include a child persistently arriving at nursery unwashed or unkempt, wearing clothes that are too small (especially shoes that may restrict the child's growth or hurt them), arriving at nursery in the same nappy they went home in or a child having an illness that is not being addressed by the parent. A child may also be persistently hungry if a parent is withholding food or not providing enough for a child's needs.

Neglect may also be shown through emotional signs, e.g. a child may not be receiving the attention they need at home and may crave love and support at nursery. They may be clingy and emotional. In addition, neglect may occur through pregnancy as a result of maternal substance abuse.

Procedure:

- The concern will be discussed with the parent
- Such discussions will be recorded, and the parent will have access to such records
- A EHAF(green form) form may need to be completed
- If there appear to be any queries regarding the circumstances the local authority children's social care team will be notified.

Domestic Violence and Abuse Domestic violence and abuse (DVA) is the abuse of one person over another who is, or has been, in a relationship. The abuse may be verbal, sexual, physical, emotional, financial or psychological. Both men and women can be abused or abusers. It occurs in all groups and sections of society and may be experienced differently to, and compounded by racism, sexuality, disability, age, religion, culture or class. The current government definition describes DVA as:

'Any incident or pattern of incidents of controlling, coercive or threatening behaviour, violence or abuse between those aged 16 or over who are or have been intimate partners or family members regardless of gender or sexuality.' Source: Home Office, Domestic Violence: A National Report, 18/9/12.

Staff may be working with children experiencing violence at home. Children experiencing abuse may be affected in a number of different ways. Staff will need to treat them sensitively, record their concerns and consider informing First Response.

We are committed to supporting the wellbeing and safety of children and acknowledge the profound and damaging effects of DVA on them. Children are always affected by living or witnessing DVA. It is estimated that 90% of children are in the same or next room when the abuse occurs. Children may:

Witness the outcome after the event, by seeing or hearing the violence. • Be used by the perpetrator to intimidate/blackmail the victim. • Think that they have triggered the violence. • Be affected by the physical and emotional effects on the victim. • Get drawn into violence towards the victim. • Be physically, emotionally or sexually abused or neglected.

We are committed to taking positive action against DVA and to actively support victims and protect children. Staff will be trained in DVA and Hidden Harm (the effect of DVA on children), and one member of staff will be appointed a DVA link for the setting.

We will create an environment that raises awareness of DVA and communicate to all parents/carers that it is a safe place to ask for help. Public information posters, leaflets and stickers on DVA, with key telephone numbers and the name of the link contact staff member, will be displayed on the Parents Notice board.

Staff should be able to recognise the signs of DVA, which include:

□ Victim tries to hide injuries, or minimises their extent or cause, appears frightened, overly anxious or depressed and/or is submissive or afraid to speak in front of the partner. □ Partner always attends unnecessarily and may refuse to leave, and/or may be aggressive or dominant. □ Children showing the signs and symptoms of physical, emotional, sexual abuse and/or neglect.

Procedure

If staff suspect DVA, they should report to Safeguarding Lead, who will proceed with asking direct questions to suspected victims, using the CAADA RIC (Co-ordinated Action Against Domestic Abuse Risk Assessment Form.) (Downloadable) We do not assume someone else will ask them about it. They should not expect there will be a hostile response, as victims say they were glad when someone asked them about their relationships. Staff must always be guided by the need to keep a victim and their children safe, and the fact that everyone who is being abused by someone close to them is the subject of a crime.

Staff should never ask about DVA when anybody else is present; this includes partners, children and other family members. The only exception is when they may need to have a professional interpreter or colleague present. Children or other family members should never be used as interpreters. When using a professional interpreter, staff should check that the specific person is acceptable to the client. Staff should never accept culture or religion as an excuse for DVA.

Staff should think of the DVA conversation as the start of the process, not a one-off event, as not all victims are going to open up the first time they realise that staff think they are being abused. A victim might deny or play down DVA as part of a coping mechanism. Staff should ask questions using the CAADA RIC checklist in a sensitive supporting manner. It's important to take time to put a victim at ease before asking direct questions.

Staff should be supportive and express concern, and not accuse or patronize. If they think a victim's injury is inconsistent with their explanation, they should say why they are concerned. Staff should be aware that even if someone is being abused, they may deny it. They should

accept 'no' as an answer and continue to be supportive, and discreetly offer a DVA card or leaflet with helpline numbers. They should be prepared to ask again in the future.

The conversation should be recorded. If there are serious concerns about a victim's situation, they should refer the case to the MARAC (Multi-Agency Risk Assessment Conference), (Form Downloadable) If staff and the safeguarding lead have concerns about the safety of the children, the Child Protection policy must be followed.

FGM Female Genital Mutilation (FGM), is a form of physical abuse against children. FGM is also known as female circumcision or female genital cutting. FGM has no health benefits, and it harms girls and women in many ways. It involves removing and damaging healthy and normal female genital tissue, and interferes with the natural functions of girls' and women's bodies. FGM is defined by the World Health Organisation as "all procedures involving partial or total removal of the external female genitalia or other injury to the female genital organs for non-medical reasons". FGM has no health benefits for girls and women and procedures can cause severe bleeding and problems urinating, and later cysts, infections, infertility as well as complications in childbirth.

The Female Genital Mutilation Act was introduced in 2003 and came into effect in March 2004. It was made illegal to: practice FGM in the UK; take girls who are British nationals or permanent residents of the UK abroad for FGM whether or not it is lawful in that country; and aid, abet, counsel or procure the carrying out of FGM abroad.

The age at which girls undergo FGM varies enormously according to the community. The procedure may be carried out when the girl is new born, during childhood, adolescence, at marriage or during the first pregnancy. However, in the majority of cases FGM takes place between the ages of 5-14 and therefore girls within that age bracket are at a higher risk.

The sign that children may be at risk of FGM are as follows: Child is female, from a culture where FGM is practised, and parents request an extended summer holiday to the country of origin.

If staff are concerned that a child is at risk of FGM, they must tell the safeguarding lead. The safeguarding lead must request to meet parents in private and ask them directly if they are seeking to take their daughter abroad to have FGM carried out on her. If the safeguarding lead is dissatisfied with their response and has real concerns that FGM may be imminent, they should refer the matter to First Response or to the Police. The parents should be told about the referral only if it is felt that it will not bring further risk to the child.

Peer on Peer/Child on Child abuse

Children may be harmed by other children or young people. Staff will be aware of the harms caused and will use anti bullying procedure where necessary. However, there will be occasions where a child's behaviour warrants a response under child protection.

Abusive behaviour by one child to another will not be tolerated minimised or dismissed as banter or part of growing up.

Concerns should be recorded and given to the DSL as soon as possible.

When dealing with abuse of pupils by other pupils we must be mindful of the potential for prejudice-based bullying, racist, disability, homophobic, and gender based.

Members of staff who become concerned about a pupils sexualised behaviour including and any know online sexualised behaviour should record their concerns and report them to the DSL as soon as possible.

Contextual safeguarding

As young people grow and develop, they may be vulnerable to abuse or exploitation from outside their family. These extra-familial threats might arise at school and other educational establishments, from within peer groups, or more widely from within the wider community and/or online.

As part of our safeguarding procedures, we will work in partnership with parents and other agencies to work together to safeguard children and provide the support around contextual safeguarding concerns.

Child sexual exploitation (CSE) and Child criminal exploitation (CCE)

Both CSE and CCE are forms of abuse that occur where an individual or group takes advantage of an imbalance in power to coerce, manipulate or deceive a child into taking part in sexual or criminal activity, in exchange for something the victim needs or wants, and/or for the financial advantage or increased status of the perpetrator or facilitator and/or through violence or the threat of violence. CSE and CCE can affect children, both male and female and can include children who have been moved (commonly referred to as trafficking) for the purpose of exploitation (*Keeping children safe in education*).

Child sexual exploitation (CSE)

CSE is where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child into **sexual** activity. The victim may have been sexually exploited even if the sexual activity appears consensual. CSE does not always involve physical contact; it can also occur through the use of technology and may be without the child's immediate knowledge such as through others copying videos or images they have created and posted on social media.

Signs and symptoms include:

- Physical injuries such as bruising or bleeding
- Having money or gifts they are unable to explain
- Sudden changes in their appearance
- Becoming involved in drugs or alcohol, particularly if it is suspected they are being supplied by older men or women
- Becoming emotionally volatile (mood swings are common in all young people, but more severe changes could indicate that something is wrong)
- Using sexual language beyond that expected for their age or stage of development
- Engaging less with their usual friends
- Appearing controlled by their phone
- Switching to a new screen when you come near the computer
- Nightmares or sleeping problems
- Running away, staying out overnight, missing school
- Changes in eating habits
- Talk of a new, older friend, boyfriend or girlfriend
- Losing contact with family and friends or becoming secretive
- Contracting sexually transmitted diseases.

Child Criminal Exploitation (CCE)

CCE is where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into any **criminal** activity. The victim may have been criminally exploited even if the activity appears consensual. CCE does not always involve physical contact; it can also occur through the use of technology.

Other examples include children being forced to work in cannabis factories, being coerced into moving drugs or money across the country forced to shoplift or pickpocket, or to threaten other young people. Signs and symptoms of CCE are similar to those for CSE.

If CSE or CCE is suspected, then any concerns must be reported in line with our safeguarding procedures.

The National Crime Agency (NCA) defines county lines as gangs and organised criminal networks involved in exporting illegal drugs from big cities into smaller towns, using dedicated mobile phone lines or other form of 'deal line.' Customers live in a different area to the dealers, so drug

If involvement **in county lines** is suspected, then any concerns must be reported in line with our safeguarding procedures.

runners are needed to transport the drugs and collect payment.

Perpetrators often use coercion, intimidation, violence (including sexual violence) and weapons to ensure compliance of victims. A child is targeted and recruited into county lines through schools, further and higher educational institutions, pupil referral units, special educational needs schools, children's homes and care homes.

Signs and symptoms include:

- Changes in dress style
- Unexplained, unaffordable new things (for example, clothes, jewellery, cars etc.)
- Missing from home or school and/or significant decline in performance
- New friends with those who don't share any mutual friendships with the victim, gang association or isolation from peers or social networks
- Increase in anti-social behaviour in the community including weapons
- Receiving more texts or calls than usual
- Unexplained injuries
- Significant changes in emotional well-being
- Being seen in different cars or taxis driven by unknown adults
- A child being unfamiliar with where they are.

Cuckooing

Cuckooing is a form of county lines crime. In this instance, the drug dealers take over the home of a vulnerable person in order to criminally exploit them by using their home as a base for drug dealing, often in multi-occupancy or social housing properties.

Signs and symptoms include:

- An increase in people, particularly unknown people, entering or leaving a home or taking up residence
- An increase in cars or bikes outside a home
- A neighbour who hasn't been seen for an extended period
- Windows covered or curtains closed for a long period
- Change in resident's mood and/or demeanour (for example, secretive, withdrawn, aggressive or emotional)
- Substance misuse and/or drug paraphernalia
- Increased anti-social behaviour.

If **cuckooing** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Child trafficking and modern slavery

Child trafficking and modern slavery is when children are recruited, moved, transported and then exploited, forced to work or are sold.

For a child to have been a victim of trafficking there must have been:

- *Action:* recruitment, transportation, transfer, harbouring or receipt of a child for the purpose of exploitation
- *Purpose:* sexual exploitation, forced labour or domestic servitude, slavery, financial exploitation, illegal adoption, removal of organs.

Modern slavery includes slavery, servitude and forced or compulsory labour and child trafficking. Victims of modern slavery are also likely to be subjected to other types of abuse such as physical, sexual and emotional abuse.

Signs and symptoms for children include:

- Being under control and reluctant to interact with others
- Having few personal belongings, wearing the same clothes every day or wearing unsuitable clothes
- Being unable to move around freely
- Appearing frightened, withdrawn, or showing signs of physical or emotional abuse.

If **child trafficking** or **modern slavery** are suspected, then any concerns must be reported in line with our safeguarding procedures.

Forced marriage

A forced marriage is defined as 'a marriage in which one, or both spouses, do not consent to the marriage but are coerced into it. Duress can include physical, psychological, financial, sexual and emotional pressure.'

Where incidents of forced marriage are shared by our own staff, students or volunteers, we will respect confidentiality at all times and not share information without their permission. However, we will share this information without permission in cases of child protection, or where we believe there is an immediate risk of serious harm to the person involved.

If it is suspected that a **forced marriage** is being planned, then any concerns must be reported in line with our safeguarding procedures.

'Honour' based abuse (HBA)

HBA is described as 'incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing.' (*Keeping children safe in education*). Such abuse can occur when perpetrators perceive that a relative has shamed the family and/or community by breaking their 'honour' code. It is a violation of human rights and may be domestic, emotional and/or sexual abuse such as being held against their will, threats of violence or actual assault. It often involves wider family networks or community pressure and so can include multiple perpetrators.

Signs and symptoms of HBA include:

- Changes in how the child dresses or acts, such as not 'western' clothing or make-up
- Visible injuries, or repeated injury, with unlikely explanations
- Signs of depression, anxiety or self-harm
- Frequent absences
- Restrictions on friends or attending events.

Where incidents of HBA are shared by our own staff, students or volunteers, we will respect confidentiality at all times and not share information without their permission. However, we will share this information without permission in cases of child protection, or where we believe there is an immediate risk of serious harm to the person involved.

If **honour-based abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Child abuse linked to faith or belief (CALFB)

Child abuse linked to faith or belief (CALFB) can happen in families when there is a concept of belief in:

- Witchcraft and spirit possession, demons or the devil acting through children or leading them astray (traditionally seen in some Christian beliefs)
- The evil eye or djinns (traditionally known in some Islamic faith contexts) and dakini (in the Hindu context)
- Ritual or multi-murders where the killing of children is believed to bring supernatural benefits, or the use of their body parts is believed to produce potent magical remedies
- Use of belief in magic or witchcraft to create fear in children to make them more compliant when they are being trafficked for domestic slavery or sexual exploitation
- Children's actions are believed to have brought bad fortune to the family or community.

If **CALFB** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Extremism and radicalisation

Under the Counter-Terrorism and Security Act 2015, there is a duty 'to help prevent the risk of people becoming terrorists or supporting terrorism'. This includes safeguarding learners from extremist ideologies and radicalisation to prevent them from being drawn into terrorism. This is known as the Prevent Duty.

Children can be exposed to different views and receive information from various sources and some of these views may be considered radical or extreme. Radicalisation is the way a person comes to support or be involved in extremism and terrorism; usually it's a gradual process so those who are affected may not realise what's happening. Radicalisation is a form of harm.

The process may involve:

- Being groomed online or in person
- Exploitation, including sexual exploitation
- Psychological manipulation
- Exposure to violent material and other inappropriate information
- The risk of physical harm or death through extremist acts.

For further information visit [The Prevent Duty](#) website.

If **radicalisation or extremism** is suspected, then any concerns must be reported in line with our safeguarding procedures. This includes reporting concerns to the police.

Online safety

While the growth of internet and mobile device use brings many advantages, the use of technology has become a significant component of many safeguarding issues such as child sexual exploitation and radicalisation. At nursery smart devices such as mobile phones, cameras, smart watches and smart glasses are not permitted within the nursery. (Please refer to the mobile phone and electronic devices policy)

There are four main areas of risk associated with online safety:

- Content - being exposed to illegal, inappropriate or harmful material such as pornography, fake news, racist or radical and extremist views
- Contact - being subjected to harmful online interaction with other users such as commercial advertising or adults posing as children or young adults
- Conduct - personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images and online bullying
- Commerce - risks such as online gambling, inappropriate advertising, phishing and or financial scams.

Report **online safety concerns** to the DSL and to the Child Exploitation and Online Protection Centre (CEOP): <https://www.ceop.police.uk/Safety-Centre/>

Inappropriate content received via email must be reported to the DSL and to the Internet Watch Foundation (IWF): <https://www.iwf.org.uk/en/uk-report/>

Up skirting/down blousing

Up skirting and down blousing are criminal offences. They involve taking pictures of someone's genitals, buttocks or other intimate images under their clothing without them knowing, either for sexual gratification or in order to humiliate, or distress, the individual.

If **up skirting or down blousing** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Staffing and volunteering

It is the policy of the nursery to provide a secure and safe environment for all children. The nursery will only allow an adult who is employed by the nursery to care for children and who has an enhanced clearance to be left alone with children. It won't allow volunteers to be alone with children or any other adult in the nursery regardless of whether or not they have a DBS clearance.

All staff will attend child protection training and receive initial basic child protection training during their induction period. This will include the procedures for spotting signs and behaviours of abuse and abusers, recording and reporting concerns and creating a safe and secure environment for the children in the nursery.

We aim to provide clear direction to staff and others about expected codes of practice in dealing with child protection issues. The procedures within this policy are there to ensure that child protection concerns and referrals are handled sensitively, professionally and in a way that supports the needs of the child. All adults working with children have a responsibility to protect children in their care. It is our role to keep our eyes and ears open, to report anything suspicious or evidence of abuse to the Designated Lead Practitioner for safeguarding/child protection in our setting, and are excellent adult role models. Our Designated Lead Practitioners for safeguarding /child protection are (Miss Sophie King, Mrs Elsa Reis and Miss Chloe Sharpe). Through training, they have an understanding of how this process operates and will follow the procedures should any concerns about a child arise. These procedures can be found at <http://www.warwickshire.gov.uk/safeguardtraining>. Staff are also aware of meetings and these are put into place as and when necessary.

According to regulations ALL staff are subject to a satisfactory enhanced DBS check, before commencing employment. In addition to this, all staff submits an up to date CV, attend an interview and supply the names of two referees. Through this process we expect referees to be open and honest regarding any safeguarding issues at last place of employment. We also consult the DBS official site which is updated every six months. Any new information is shared with all staff.

Recruitment and selection

Through the implementation of our Safer recruitment of staff policy, we endeavour to prevent unsuitable people from becoming members of staff. We check the suitability of new recruits following the procedures outlined in the Recruitment, selection and suitability of staff policy.

Procedures include relevant checks, such as obtaining references, establishing the identity of applicant and conducting criminal records disclosures prior to employment. Where required, staff and stakeholders have enhanced DBS checks. Clear person specification criteria and

processes during the recruitment and selection process enable us to determine a candidate's suitability for the role.

We have specific responsibilities, as outlined in this policy, for any staff, apprentices, students and learners under the age of 18 whether living with their families, in state care, or living independently.

Induction and probation for staff

As part of our induction process, all new workers will receive basic training on this Safeguarding children and child protection policy so they have the necessary knowledge and skills to safeguard and promote the welfare of children.

Within the first week of induction, all staff will receive a copy of this policy. It is the line manager's responsibility to ensure that the new staff member understands it and is able to follow it. All safeguarding training must be completed by the end of the probationary period.

All staff are expected to keep their safeguarding knowledge and skills up-to-date and report any concerns they may have. We maintain records to ensure all staff have received the training they need.

Learners on placements or in employment

We hold responsibility for ensuring that learners on placement or in employment are familiar with and sign up to this policy and agree to work within this framework. Learners will receive basic child protection training prior to starting their placement.

Learners and students under the age of 18 will be protected as children. Risk assessments will be completed to ensure their safety and well-being are protected and supported during their employment or training period. If situations arise during employment or placement which identifies those aged 18 or under are at risk from abuse or neglect, we will contact the appropriate bodies to ensure the individual is safeguarded.

We have three named lead practitioners within the nursery who take lead responsibility for safeguarding and co-ordinate child protection and welfare issues, known as the Lead Safeguarding Officer's. The nursery Lead Safeguarding Officer's liaise with the Local Safeguarding Children Board and the local authority children's social care team, undertake specific training, including a child protection training course, and receive regular updates to developments within this field.

The Safeguarding Officer's at the nursery are: Miss Sophie King, Mrs Elsa Reis and Miss Chloe Sharpe.

- We provide adequate and appropriate staffing resources to meet the needs of children
- Applicants for posts within the nursery are clearly informed that the positions are exempt from the Rehabilitation of Offenders Act 1974. Candidates are informed of the need to carry out checks before posts can be confirmed. Where applications are rejected because of information that has been disclosed, applicants have the right to know and to challenge incorrect information.
- We give staff members/volunteers and students opportunities to declare changes that may affect their suitability to care for the children including anything in their private life, family members or medical background during regular supervisions (bi-annually) unless needed earlier.
- This information is also stated within every member of staff's contract
- We request DBS checks every three years, or if on the update service checks on their DBS are done every three months.

- We abide by the requirements of the EYFS and any Ofsted guidance in respect to obtaining references and suitability checks for staff and volunteers, to ensure that no disqualified person or unfit person works at the nursery or has access to the children
- We ensure we receive at least two written references BEFORE a new member of staff commences employment with us
- All students will have enhanced DBS checks conducted on them before their placement starts
- Volunteers, including students, do not work unsupervised
- We abide by the requirements of the Safeguarding Vulnerable Groups Act (2006) and the Childcare Act 2006 in respect of any person who is disqualified from providing childcare, is dismissed from our employment, or resigns in circumstances that would otherwise have led to dismissal for reasons of child protection concern
- We have procedures for recording the details of visitors to the nursery and take security steps to ensure that we have control over who comes into the nursery, so that no unauthorised person has unsupervised access to the children
- All visitors/contractors will be supervised whilst on the premises, especially when in the areas the children use
- All staff have access to a whistle blowing policy which will enable them to share any concerns that may arise about their colleagues in an appropriate manner
- All staff will receive regular supervision meetings where opportunities will be made available to discuss any issues relating to individual children, child protection training and any needs for further support
- The deployment of staff within the nursery allows for constant supervision and support. Where children need to spend time away from the rest of the group, the door will be left ajar or other safeguards will be put into action to ensure the safety of the child and the adult.

Informing parents

Parents are normally the first point of contact. If a suspicion of abuse is recorded, parents are informed at the same time as the report is made, except where the guidance of the LSCB does not allow this. This will usually be the case where the parent or family member is the likely abuser, or where a child may be endangered by this disclosure. In these cases the investigating officers will inform parents.

Confidentiality

All suspicions, enquiries and external investigations are kept confidential and shared only with those who need to know. Any information is shared in line with guidance from the LSCB.

Support to families

The nursery takes every step in its power to build up trusting and supportive relations among families, staff, students and volunteers within the nursery.

The nursery continues to welcome the child and the family whilst enquiries are being made in relation to abuse in the home situation. Parents and families will be treated with respect in a non-judgmental manner whilst any external investigations are carried out in the best interests of the child.

Confidential records kept on a child are shared with the child's parents or those who have parental responsibility for the child, only if appropriate in line with guidance of the LSCB with the proviso that the care and safety of the child is paramount. We will do all in our power to support and work with the child's family.

Employees, students or volunteers of the nursery or any other person living or working on the nursery premises

If an allegation is made against a member of staff, student or volunteer or any other person who lives or works on the nursery premises regardless of whether the allegation relates to the nursery premises or elsewhere, we will follow the procedure below.

The allegation should be reported to the senior manager on duty. If this person is the subject of the allegation then this should be reported to the owner/deputy manager instead.

The Local Authority Designated Officer (LADO), Ofsted and the LSCB will then be informed immediately in order for this to be investigated by the appropriate bodies promptly:

- The LADO will be informed immediately for advice and guidance
- A full investigation will be carried out by the appropriate professionals (LADO, Ofsted, LSCB) to determine how this will be handled
- The nursery will follow all instructions from the LADO, Ofsted, LSCB and ask all staff members to do the same and co-operate where required
- Support will be provided to all those involved in an allegation throughout the external investigation in line with LADO support and advice
- The nursery reserves the right to suspend any member of staff during an investigation
- All enquiries/external investigations/interviews will be documented and kept in a locked file for access by the relevant authorities
- Unfounded allegations will result in all rights being re-instated
- Founded allegations will be passed on to the relevant organisations including the local authority children's social care team and where an offence is believed to have been committed, the police, and will result in the termination of employment. Ofsted will be notified immediately of this decision. The nursery will also notify the Disclosure and Barring Service (DBS) to ensure their records are updated
- All records will be kept until the person reaches normal retirement age or for 10 years if that is longer. This will ensure accurate information is available for references and future DBS checks and avoids any unnecessary re-investigation
- The nursery retains the right to dismiss any member of staff in connection with founded allegations following an inquiry
- Counselling will be available for any member of the nursery who is affected by an allegation, their colleagues in the nursery and the parents.

Public interest disclosure (whistleblowing)

Whistleblowing is the term used when a worker passes on information concerning wrongdoing. All safeguarding allegations, internal or external, current or historical, must be passed on the DSL. We will cooperate fully with the authorities involved and follow any guidance given. See the Whistleblowing policy which outlines our procedures, including where staff may wish to raise concerns about poor or unsafe practice regarding our safeguarding provision. All concerns will be taken seriously by the senior leadership team.

We believe keeping children safe is the highest priority and if, for whatever reason, concerns cannot be reported to the DSL or deputy DSL, or where a staff member feels that their genuine concerns are not being addressed, concerns can be reported anonymously to the LA social services safeguarding children team, the NSPCC, the police, or Ofsted.

Allegation against our staff

An allegation against our staff may relate to a person who has:

- Behaved in a way that has harmed a child, or may have harmed a child
- Possibly committed a criminal offence against or related to a child
- Behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children, or
- Behaved or may have behaved in a way that indicates they may not be suitable to work with children.

We will make every effort to maintain the confidentiality of all parties while an allegation or concern is being investigated. Dealing with an allegation can be a stressful experience and, to support the staff member, a named person (usually the DSL or Deputy DSL) to liaise with will be offered. The timeframes for an investigation will follow the guidelines of other involved authorities. See Whistleblowing policy.

Coronavirus COVID-19- Pandemics.

During a pandemic or closure, we will ensure that we are still following all safeguarding procedures, alongside Warwickshire county council guidelines

We will endeavour to keep a DSL on site, if that is not possible a DSL will be available by phone or email to discuss any concerns.

Staff will be trained on how to act and identify new safeguarding concerns in order to follow the correct procedures and raise the alert if necessary

Any updated advice received from local authorities will be passed on to the team via Memos and notice boards and email.

We will ensure that all children who are not attending the setting, that are part of a child protection plan or who have social workers/support workers that we are making and recording regular contact with them. Any concerns to be logged and address accordingly.

We will be calling all parents to offer support and advice, if there are any safeguarding concerns, they will be dealt with following the normal procedures.

If we fail to have any contact with parents, we will offer a door to door visit to ensure all is well, if not, safeguarding procedures will be followed.

If staff or volunteers have any concerns about a member of staff or volunteer that may pose a safeguarding risk to children, yellow forms must be filled in a reported to the DSL.

Information, telephone numbers are available in the Orange COVID-19 Folder.
